Comments received during October 2015**

**I have always had excellent care from St Leonard practice over 40 years. I would recommend increasing telephone discussions with our GP's for non- emergency, essential needs**

-----

**I am very satisfied with the excellent treatment I have received at this practice over a great many years. The service is even better now than when I first registered in the 1980's**

-----

**There is in my opinion no way that the service could be improved. The staff are wonderful and very friendly; always accommodating. The doctors are equally wonderful and never judgmental.**
